

Pond Fencing: Table 2 (Application Rates)

Material	Application Rate (pounds per 100 sq. feet)	Notes
Bentonite	100 to 150 (silty soils) 200 to 300 (sandier soils)	Most expensive
Soda ash	10 to 25	Makes a good seal. Soil must contain >15% clay + 50% clay/silt soil
Rock salt	20 to 33	Least expensive. Application during new construction is unlikely to harm fish.
